

BLUESYSTEM

Controllable LED running lights

BLUEDOME

Elegant, dimmable worklight

BlueDome

Don't get caught in the dark during your show. BlueDome provides dimmable, omni-directional LED light to gently illuminate stairwells, lobbies, wing spaces, and seating areas.

BlueDomes are available in multiple finishes. The frosted dome emits a bright, clear light for maximum illumination, while the semi-opaque dome creates a subtler glow that illuminates without drawing the eye.

Eyelid Accessory

BlueDomes keep a low profile. The optional snap-on eyelid accessory ensures that your BlueBeams provide safe illumination while conforming to the design needs of your venue.

BLUEBEAM

Directional worklight, just where you need it

BlueBeam

Take control of your backstage lighting. This dimmable, directional LED BlueBeam is perfect for loading galleries, upstage crossovers, scenery docks, fly rails and other backstage spaces.

Available in multiple beam angles, BlueBeam can illuminate tight spaces or long throws up to 50 feet. BlueBeam comes in white and black color options to blend into any behind the scenes environment.

Cowl Accessory

Keep your running light backstage where it belongs. BlueBeam offers an optional, snap-on cowl accessory that prevents unwanted light spill onstage or in the house.

INSTALLATION

Corporate Headquarters ■ Middleton, WI USA

Global Offices ■ London, UK ■ Rome, IT ■ Holzkirchen, DE ■ Paris, FR ■ Hong Kong ■ Singapore ■ New York, NY ■ Orlando, FL ■ Los Angeles, CA
