The History

A simple idea of creating a portable, pop-up photographic reflector sparked not only a revolution in imaging but put the wheels in motion for Lastolite to grow from a tiny, family-run company to an internationally-renown industry leader that thrives on innovation.

Right from its humble start, Lastolite has designed innovative and keenly-priced products to help keen photographers and professionals take even better shots. With an ever-growing portfolio of products, In 2011, Lastolite became part of the Vitec Group - a multinational holding company specialized in supporting professional photographers, broadcasters and filmmakers.

That's a huge achievement in a relatively small time, as the original Lastolite company was established in 1978 and owned by Coats Viyella - a global leader in textiles.

Six years later, former Coats Viyella employee Martin Henry purchased the company which still had only one product, the now famous circular collapsible reflector. It was the product that made reflectors truly portable, taking them out of the studio and onto location everywhere.

Martin immediately moved the business to the small village of Congerstone in Leicestershire, England. He began manufacturing from the family home, utilising the garage, kitchen and dining room. Martin's wife Margaret and their son Sean joined the team.

Martin saw great potential to expand the business beyond the UK so the family took a driving holiday through Europe, appointing five international distributors along the way.

The business soon outgrew the family home so Lastolite moved to their first industrial premises, a small 500 sq ft building in a nearby town called Coalville.

As the reflectors gained global acceptance, Martin used the same technology to launch the world's first collapsible photographic background at the 1988 Photokina trade show - the first time Lastolite had exhibited there. The new products triggered another period of significant growth and later that same year the business had to move again, this time to a new 4000 sq ft facility.

Left: The first building rented by Lastolite when production moved out of the Henry's home.
Right: Martin and Margaret Henry.

Over the next 15 years, Lastolite flourished, with a range of more than 30 products sold in more than 60 countries worldwide. Again the business moved to a larger 12,000 sq ft factory.

In 2004 Martin Henry decided to take a step back from the day-to-day business allowing his son Sean to take control. With a strong global distribution network, Sean turned his attention to what Lastolite became famous for, innovation.

Lastolite machinist from 1988

Over the next few years Lastolite tapped into huge changes in the photography market as digital technology and off-camera flash took hold. It was in this period that Lastolite launched some of its most successful products including the TriGrip, Hilite, Cubelite and Ezybox Hotshoe. By the end of 2006 Lastolite had firmly established itself as the world's leading manufacturer of backgrounds and light control systems.

A year later Lastolite acquired Colorama Photodisplay, the world's largest manufacturer of seamless background papers. The business was again re-located to Coalville to a new 22,000 sq ft facility.

As business continued to grow, Lastolite was awarded the 2011 Queens award for Enterprise in recognition of the company's international trade achievements. Then in 2012 Lastolite and the Manfrotto UK distribution company both relocated to a state-of-the-art 44,000 sq ft facility in Ashby-de-la-Zouch. The success story continues.

Lady Gretton, Lord-Lieutenant of Leicestershire presenting Sean Henry with The Queen's Award for Enterprise: International Trade

The Quality

At Lastolite By Manfrotto we not only make a range of innovative accessories to help photographers and film-makers take great shots, but we also take pride in offering world-class products manufactured to the highest quality, ensuring they can withstand the repeated daily use of the most demanding image-maker.

To keep our leading edge, we make significant investments into research and development to ensure that we can continue to launch new and innovative products to meet the needs of the ever-changing photo

and video markets. Allied to our strict quality standards and attention to detail, we are always looking at ways to improve the way our products are manufactured, too. We are consistently developing new ideas and technology which leads to investment in bespoke tooling and mouldings. With the vast majority of our fabric-based products made in our huge Leicestershire factory, we retain close control over quality.

High quality sprung steel is used inside all of our collapsible products. The steel is 'dressed' to ensure all the sharp edges and dirt are removed to ensure no damage is incurred during use and provide maximum longevity. To join the ends of the steel together we use a range of specially designed, heat treated clips that guarantee a permanently strong fix for the lifetime of the product. For added peace of mind we offer a lifetime warranty on the steel rim in all of our products.

The steel rim is incorporated into our products by inserting it into our specially designed rim tape. The rim tape is made from a hard wearing, woven elasticated construction designed to withstand the typical knocks and scrapes from daily use by a busy photographer. The thick woven construction prevents the steel from wearing through and potentially weakening the structure of the product.

We apply the same level of detail and quality to all of our textiles as well. Each fabric is manufactured to meet the needs of the product, specifying the construction of the weave and the type of raw materials used. Each fabric is then coated or processed depending on the technical performance required. The textiles are also tested to make sure they meet the correct performance levels over repeated use and in adverse conditions. We have developed a range of over 10 different technical fabrics used to manufacture our products, including our patent protected innovative TriGrip Difflector fabric.

Our diffuser fabrics are manufactured using only the finest whiteners to reduce any chance of unwanted colourcast. The fabric is also specially coated to ensure colour balance and a uniform spread of light as it is passed through the material, avoiding typical issues such as irregular distribution and hot spots.

Our reflective surfaces are also specifically designed for our products and not general purpose textiles. We incorporate the correct level of stretch into the weave of all our fabrics to ensure the foil surface remains intact and does not crack under tension and lead to delamination. We also use the highest quality adhesive and lamination processes to ensure the foil remains bonded to the textile throughout the products lifetime and provides a uniformed opaque surface to bounce the light.

And finally to hold our products together we use a triple thread, twin needle, loop stitch which provides maximum strength and durability.

“ I love using the Lastolite TriGrip reflectors - I can take photos whilst simultaneously holding the reflector. The grip allows me to comfortably and securely hold the reflector so I can accurately bounce light onto my model with one hand. Perfect if you are working without an assistant or if you're on the move. They fold up nice and small like your standard circular reflector and never lose shape. An incredibly useful light shaping tool for every photographer. ”

Nicole Gomes, Nicole Gomes Photography.

The triangular structure of the TriGrip makes it easy to hold in one hand with the camera in the other or for an assistant to hold one in each hand.

The securing strap allows the user to support the reflector without actually gripping the handle, reducing pressure on the wrist and fingers when held for prolonged periods.

The TriFlip covers make the TriGrip even more versatile. Simply slide the TriGrip into the cover to change the surface.

Reflectors & Diffusers

TriGrip

The TriGrip reflectors utilise a triangular design which provides a much stronger and stable structure. They also feature a moulded handle with a securing strap, allowing even more accurate positioning of the reflector with just one hand, which means that light can be directed to all those awkward spots e.g. under the chin and eyes without the need for stands or supports. The securing straps also allow you to support the reflector without actually gripping the handle, reducing the pressure on your wrist and fingers when held for prolonged periods.

TriGrip designed by Gary Astill. A registered design.

Features and Benefits

- ▶ Hold the reflector with just one hand
- ▶ Hold 2 reflectors, one in each hand
- ▶ New moulded handle with strap
- ▶ Double sided
- ▶ Collapses to a third of its original size

TriGrip Bracket

The TriGrip bracket is ideal for photographers who work alone and want to support the TriGrip reflector on one of our extending handles, a lighting stand, tripod or any other type of fixing bracket (a spigot connector may be required). Simply place the moulded TriGrip handle into the bracket and secure it in place with the strap. The ball joint connector enables you to then position the TriGrip exactly where you want leaving your hands free to operate the camera.

The bracket can be used to support the TriGrip when working with ambient light or in conjunction with battery operated flash using the flash gun attachment arm to bounce light off the reflectors surface or shoot through a diffusing panel.

Features and Benefits

- ▶ Ideal for photographers who work alone
- ▶ Compact foldaway design
- ▶ Compatible with battery operated flash guns
- ▶ Multi position ball joint connector

Specifications

Reflectors & Diffusers

TriGrip Difflector PATENTED

The TriGrip Difflector is the world's first dual purpose reflector panel which can be used as a diffuser (2.3 stops) and a bounce reflector. The unique fabric developed for this product allows light to pass through one side and bounce off the other side, making it a truly versatile product whatever the lighting conditions. The difflector is available with a Soft Silver reflective surface.

The TriGrip Difflector also features the unique TriGrip moulded handle for accurate positioning of the reflector with just one hand.

Features and Benefits

- ▶ Hold the reflector with just one hand
- ▶ Hold two reflectors one in each hand
- ▶ Use as a diffuser or a bounce reflector
- ▶ Collapses to a third of its original size

Triflector MkII

The Triflector is widely used in makeovers and fashion shots because the subject is given the Triflector's distinctive 'catch lights' to the eyes. The hinge mechanisms make all three panels individually adjustable to get light exactly where you need it. The panels each fold like our collapsible reflecting panels; the frame folds away and they all fit into a portable bag. Triflector MkII weighs only 1.2kg (2.6lb).

Reflectors & Diffusers

Skylite Rapid

For the location photographer who needs lighting control in the most demanding situations. The Skylite Rapid's collapsible but rigid aluminium frame delivers reliable performance even in windy conditions, while the Skylite Rapid change covers simply clip in place to provide maximum versatility.

The Skylite Rapid frames, fabrics and accessories are all available separately, so you can mix and match as you choose.

For greater value choose our Standard Kit. The Standard kit contains a Silver / White reflector, 1.25 stops diffuser, frame and bag.

Note: All Skylite frames are compatible with the original Skylite covers and Skylite Rapid covers.

Features and Benefits

- ▶ Aluminium frame
- ▶ Resistant to rust so ideal for outdoors
- ▶ There is an elastic cord running through the aluminium, so it's impossible to lose parts or leave anything behind
- ▶ Skylite Rapid change covers clip easily into place for an impressively taut finish
- ▶ One bag fits all sizes

Colour and Exposure Control

White Balance and Exposure

Getting accurate colours and exposure is made easier with the Lastolite By Manfrotto range of EzyBalance and XpoBalance products. Simply take a test shot of your subject holding the product each time you shoot in a new lighting situation. You can then use a custom white balance on your camera to take a reading off the Balance card for perfect white balance and exposure.

Alternatively, you can use the eyedropper tool in one of the many post-processing applications to set your correct white balance, then copy and paste to the rest of your batch of images.

With different grey options plus black and white patches, the XpoBalance allows you to set even more colour tint options for a range of creative results.

Features and Benefits

- ▶ Colour correction, pre and post capture
- ▶ Exposure control, pre and post capture
- ▶ Accurate colour rendition
- ▶ Collapsible, durable and cleanable
- ▶ Double sided
- ▶ Unique focusing target
- ▶ For use with digital or film photography
- ▶ Collapses to a third of its original size

EzyBalance **PATENTED**

The EzyBalance 18% is a handy double sided 'pop up' grey/white card which simplifies the complex technical issues surrounding exposure and colour correction when working in different lighting conditions.

A unique focusing target enables the camera to focus on the card and take the necessary readings. A waterproof version is also available for scuba divers.

Specifications

Continuous Lighting

RayD8 c3200

The RayD8 c3200 kit provides an entry-level studio lighting system for product and portrait photography. Using a continuous tungsten light source (3200k), this kit is based on a 'what you see is what you get' approach. The soft white 80cm (31.5") umbrellas included in the kit ensure the best distribution of the light.

Features and Benefits

- ▶ S type bayonet fitting
- ▶ Removable reflector
- ▶ Ideal for product photography

Flashgun Modifiers

EzyBounce

EzyBounce is a compact and foldable bounce card, the ideal accessory to help photographers achieve a softer lighting effect, eliminating the harsh shadows that may occur when using direct flash especially on-camera. Whether you're looking for a modifier to shape, diffuse or bounce light, EzyBounce is the solution.

EzyBounce mounts directly on the flash with a unique fixing silicon strap and it offers four different configurations for maximum flexibility. When not in use it can be folded to fit in a pocket or compartment of any camera case.

Features and Benefits

- ▶ Four different configurations
- ▶ Lightweight
- ▶ Secure and easy fixing silicon strap
- ▶ Carry case included

“ Lighting is the most important tool of the photographer, we spend our lives and career bending and shaping it to create our own individual signature. As we are judged on the quality of the work we create it is just as important to find the right tools that will help deliver consistent results and with style and class and ease.

Enter the Manfrotto Ezybox softbox range, a diverse and professional product that will deliver your light in a truly useable package. Easy and quick to assemble and sturdy enough to resist most of the elements that nature can throw at them, remembering that light can be both your friend and enemy – go embrace and tame it with the Ezybox softbox range and savour the results. Ezybox lights the way other softboxes will follow! ”

Eddie MacDonald, Eddie MacDonald Photography

A unique patented folding mechanism makes the Ezybox Speed-Lite 2 an ultra-portable, quick assembly softbox.

The Ezybox Hotshoe bracket securely supports the softbox while the flashgun simply slides into place and its position can be easily adjusted depending on its size.

The Ezybox Pro Softboxes assemble in a matter of minutes and the unique frame slots into the back of the box ready to attach the selected connector

Flashgun Softboxes

Ezybox Micro

A simple collapsible softbox which fits direct to your flashgun. The Micro Apollo slides directly on to your gun and is secured in place thanks to an innovative internal frame structure and elasticated collar which requires no additional fixing mechanism to be permanently attached to your flash. Fits neatly in your camera bag - a great 'always with you' accessory.

Without Ezybox Micro

Flashgun Softboxes

Ezybox Speed-Lite 2

PATENT PENDING

The Ezybox Speed-Lite 2 is a 22cm x 22cm (8.5" x 8.5") mini softbox which attaches directly onto a flashgun whether it's on or off camera.

The softbox features a unique, design patented, folding mechanism with an innovative twist lock silicon strap for a quick and secure attachment to your flashgun, making it an ultra-portable, quick assembly softbox solution for today's busy photographers.

The Ezybox Speed-Lite 2 also features an inner and outer diffuser (both removable), which when used together, produces a 2 stop light loss, delivering an unrivalled softness of light. Incorporated within the internal folding mechanism are also two magnets which enable quick attachment of the Lastolite By Manfrotto Strobe honeycomb and gel holders for creative control of the light from the flashgun.

Features and Benefits

- ▶ Assembled in seconds
- ▶ Removable inner and outer diffuser
- ▶ Folds flat for easy storage

Flashgun Softboxes

Ezybox Hotshoe

The Ezybox Hotshoe converts your battery operated flash gun from a harsh directional light into a much softer diffused light and is available in three sizes - 38cm x 38cm (15" x 15"), 54cm x 54cm (21" x 21") and 76cm x 76cm (30" x 30"). The Ezybox hotshoe folds flat for easy storage and can be assembled in a matter of minutes. The inner and outer diffusers, which when used together, produces a two stop light loss. There are also a number of accessories available including extending handles, a tilthead bracket and creative diffusers.

The Ezybox Hotshoe Softbox is not designed for use with studio flash heads.

Removable inner + outer diffusers

Features and Benefits

- ▶ Softbox for Hotshoe flash
- ▶ Adjustable bracket for different sized flash guns
- ▶ Operates as a coldshoe
- ▶ Folds flat
- ▶ Assembled in a few minutes
- ▶ Ideal for location use

Flashgun Softboxes

Ezybox Beauty

The Ezybox Beauty offers a very specific control of the light from your flashgun, when compared to the highly acclaimed Ezybox Hotshoe. Firstly, the 38cm x 38cm (15" x 15") softbox has a white interior rather than silver, offering a slightly softer, creamier level of diffusion, and secondly it features an internal baffle and external circular mask that together simulate the shape and fall off of light that you might expect from a traditional studio flash beauty dish. Both the baffle and mask are easily removable and replaced with two levels of diffusion, turning the Ezybox Beauty into a more conventional softbox. Like all Ezybox products the softbox folds flat for easy storage and portability and can be assembled in a matter of minutes, without the use of rods.

There are also a number of accessories available including extending handles, a tilthead bracket and creative diffusers.

Features and Benefits

- ▶ White interior for softer, richer and creamier light
- ▶ Suspended inner baffle and outer mask
- ▶ Alternative outer diffuser
- ▶ Incorporates the Ezybox Hotshoe Bracket LL LS2414

Specifications

Ezybox Beauty	Code
Ezybox Beauty / Softbox 38cm (15")	LL LS2650P

Multi-fit Softboxes

Ezybox Pro

Ezybox Pro is a range of unique fast fit softboxes which can be used with traditional studio flash, battery operated flashguns and the Elinchrom Ranger Quadra RX range. The softboxes feature a unique softbox frame which fits directly to our Ezybox Pro Square, Ezybox Pro Octa and Ezybox Pro Switch softboxes. Depending on your chosen light source, a choice of adapters can then be used to link the light source to the softbox frame. So, rather than buying different softboxes for every light you own the Ezybox Pro now offers a true 'one system fits all' solution.

The Ezybox Pro Softbox Frame

With flashguns and receiver

With studio flash

With Elinchrom Quadra

With flashguns and umbrella

Features and Benefits

- ▶ Multi light system bracket
- ▶ Compatible with all seven Ezybox Pro softboxes
- ▶ Also works with umbrellas when using flashguns
- ▶ Speedlight Bracket ships with Tilthead Spigot (LL LA2401) and two way trigger cable

Multi-fit Softboxes

Ezybox Pro - Square

The Ezybox Pro is the world's first softbox designed to fit studio flash, battery operated flash guns and the Elinchrom Ranger Quadra RX. Designed to meet the demands of modern day photographers who shoot with studio flash and battery flash, the Ezybox Pro enables them to carry one softbox which fits all their lighting kit and switch from one to the other using simple connectors, without making any adjustments to the softbox itself.

The Ezybox Pro Square softbox is our lightest softbox ever. Fast to assemble, the softbox simply pops open and is secured using two support rods and our unique Ezybox Pro softbox frame. The Ezybox Pro Square is available in three sizes - small, medium and large (see below for measurements) and feature inner and outer diffusers which when used together, produces a 2 stop light loss and simply requires the correct connection kit depending on your chosen light source(s).

Flashgun Softboxes

Hotrod Strip

In addition to our traditional square Ezybox Hotshoe softbox we also have strip softboxes for use with battery operated flashguns. The strips are available in two different sizes and feature an inner diffusion panel and an adaptor plate with rods (which supports the weight of the softbox). The flashgun simply slides into a shoe mount attached to the adaptor plate.

Features and Benefits

- ▶ Strip box for full length lighting
- ▶ Simple assembly
- ▶ Slide on shoe mount for flashgun

Flashgun Modifiers

Strobo

The Strobo is a compact and simple to use creative light modifying system for battery operated flashguns. The Strobo is available in various kit configurations using two different flash gun attachment methods, one which fits directly onto a flashgun (LL LS2616, LL LS2605 & LL LS2606) and the other which utilises the highly successful Ezybox Hotshoe Bracket (LL LS2617). Each version incorporates clever magnetic connection points which allow a range of accessories to simply snap into place in front of the flashgun, ready to modify the raw light as it leaves the gun. The range of modifiers include honeycombs, gels, gobos, a snoot and barn doors. The modifiers can be used individually or in combination with each other.

Features and Benefits

- ▶ Creative light modifiers for flashguns
- ▶ Studio lighting effects for flashguns
- ▶ Unique magnetic connecting system
- ▶ Fits neatly in your camera bag

Flashgun Modifiers

Strobo Gobo

The Strobo Gobo kit allows you to create stunning lighting and background effects using your battery operated flashguns without the need to keep moving locations. The Gobo works with your chosen Strobo Bracket - LL LS2414 + LL LS2611 or LL LS2601. Simply attach the Gobo to your existing bracket and slide in your chosen Gobo mask. The kit comes with two Gobo masks as standard; an arched window and a dappled foliage effect. A range of alternative Gobo masks are available separately. The Gobo holder also takes traditional size B Gobos (86mm). There is even an option to create a slightly 'out of focus' effect.

Features and Benefits

- ▶ Create different background effects without moving location
- ▶ A range of Gobo masks are available
- ▶ Can be used in conjunction with Strobo gels
- ▶ Also take standard size B Gobos (86mm)

Specifications

Strobo Gobo	Code
Strobo Gobo**	LL LS2625

Gobo Set - Architectural*	LL LS2612

*Contains 3 different Gobo's

**Requires Ezbox Hotshoe Bracket Adapter LL LS2611 for use with the Ezybox Hotshoe Bracket LL LS2414

Strobo Collapsible Snoot

The Strobo collapsible snoot allows you to take maximum control of the light from your battery operated flashguns. Simply attach the snoot directly to your chosen Strobo bracket - LL LS2414 + LL LS2611 or LL LS2601 to create a small concentrated pool of light, ideal as a hair light or to illuminate a small part of your subject. The Strobo snoot instantly transforms the harsh light from your flashgun into an extremely creative light which traditionally could only be achieved using studio flash. For added creativity the Strobo snoot can also be used in conjunction with the Strobo gel system.

Flashgun Brackets & Accessories

TriFlash Shoe Lock

The TriFlash Shoe Lock is a unique bracket which allows photographers to attach up to three flashguns onto one light stand. The bracket features an umbrella socket so the gun(s) can be used with or without a shoot through or reflective umbrella. The adjustable 'screw locking' shoe mounts offer an additional locking mechanism to work alongside the built in method used on a flashgun. Whether you are looking for increased overall power or a quicker recycling time with the guns on a lower power, the TriFlash Shoe Lock will be a valuable addition to your kit.

Features and Benefits	
▶ Attach up to three flash guns	
▶ Screw locking	
▶ Can be mounted onto a standard brass spigot	
▶ Umbrella socket	

Specifications	
Triflash Shoe Lock	Code
Triflash Shoe Lock	LL LA2423

TriFlash Sync

The TriFlash Sync is identical to the TriFlash Shoe Lock but with the added benefit of a built in sync system allowing the photographer to fire up to three flash guns from one triggering device.

The sync bracket can be fired by either the built in slave cell or via a triggering device plugged into the built in X sync/PC sync socket. The built in slave cell can be adjusted to allow for none, 1, 2 or 3 pre flashes if required.

The TriFlash Sync is shipped with a 3.5mm to 3.5mm mono jack cable and a 3.5mm mono jack to PC Sync cable to attach third party triggering systems. There is also a dummy cold shoe included for photographers who only work with one or two guns and want to slide their trigger receiver (i.e. Pocket Wizard) onto one of the spare shoe mounts.

Features and Benefits	
▶ Attach up to three flash guns	
▶ Built in slave cell with pre-flash recognition	
▶ X sync/PC sync socket for third party triggering devices	

Specifications	
TriFlash Sync	Code
TriFlash Sync	LL LA2455

TriFlash using built in slave cell

TriFlash with Pocket Wizard

Quad Bracket

The ultimate flashgun bracket. Whether you are looking for more power to freeze the action or a faster recycling time from your flashguns the Quad Bracket is the perfect solution. Simply attach up to 4 flashguns to the bracket, then attach one of our Ezybox Pro softboxes or umbrellas to create a beautifully diffused light.

Features and Benefits

- ▶ Attach up to 4 flashguns
- ▶ Strong robust design
- ▶ Can be used with the Ezybox Pro softboxes or umbrellas
- ▶ Includes PC and 3.5mm jack cables

Specifications

	Code

Joe McNally Signature Range

Joe McNally

Joe McNally is an internationally acclaimed photographer whose career has spanned 30 years and included assignments in over 50 countries. He has shot cover stories for TIME, Newsweek, Fortune, New York, Entertainment Weekly, The New York Times Sunday Magazine, and Men's Journal. He has been a contract photographer for Sports Illustrated, a staff photographer at LIFE, and, currently, an ongoing 23-year contributor to the National Geographic. Joe was listed by American Photo as one of the 100 Most Important People in Photography and described by the magazine as "perhaps the most versatile photojournalist working today". He has been honored as a member of Kodak- PDN Legends Online, as well as being a Nikon Legend Behind the Lens. In 2010, he was voted as one of the 30 most influential photographers of the decade in an industry- wide Photo District News survey. Joe is proud to be recently named to the Nikon Ambassador program. He also received a "Top Blog Award" by Resource Magazine, in addition to a recent accolade as one of "The Top 5 Most Socially Influential Photographers" by EyeFi.

Joe McNally Signature Range

Joe McNally Ezybox

The Joe McNally Ezybox Hotshoe is a new addition to our highly acclaimed softbox range for battery operated flashguns. Unlike our existing range of Ezybox Hotshoe softboxes, the Joe McNally version features a white interior rather than silver which offers a slightly softer creamier level of diffusion. As with our other softboxes this version features two removable diffusion layers and is compatible with our softbox accessories such as Grids and the Creative Mask Strips.

Features and Benefits

- ▶ Adjustable bracket for different sized flash guns
- ▶ Inner and outer diffuser
- ▶ White interior

Double diffusion layer

Joe McNally Ezybox Speed-Lite Plus

'Based on the original Lastolite Ezybox Speed-Lite, the Joe McNally 'plus' version features Joe's preferred white interior for a 'softer / creamier' look. The Joe McNally Ezybox Speed-Lite Plus also features two removable diffusers for maximum softness as well as a choice of three inner diffusers; choose from soft silver for a punchier and specular approach, a soft gold for a touch of warmth, or use the traditional translucent inner for maximum diffusion.

Features and Benefits

- ▶ Collapsible
- ▶ Compatible with flashguns
- ▶ Three inner diffusers

Joe McNally Ezybox Speed-Lite Plus 22cm x 22cm (8.5" x 8.5")	LL LS2420JM

Joe McNally Signature Range

Joe McNally 4 in 1 Umbrella

The Joe McNally 4 in 1 Umbrella is the largest 'mid-sized' umbrella available, 140cm (55") open. It features four different lighting options (silver bounce, white bounce, translucent shoot through and translucent shoot through with square mask). The Joe McNally 4 in 1 Umbrella offers un-rivalled versatility and could be the only umbrella you will ever need. Large enough to light a full length portrait, the 4 in 1 also offers the photographer the options to create 'softbox' type catch-lights in the eyes with the translucent shoot through with mask.

- Features and Benefits**
- ▶ White bounce
 - ▶ Silver bounce
 - ▶ Shoot through
 - ▶ Shoot through with square mask

Specifications					
Joe McNally 4 in 1 Umbrella	A	B	C	D	Code
Joe McNally 4 in 1 Umbrella	178cm (70")	93cm (36.5")	130cm (51")	140cm (55")	LL LU5038JM

Joe McNally TriFlash

The Joe McNally TriFlash is the latest addition to our successful TriFlash range. Joe's version of this product features unique rotating shoe mounts which allow him to position his flashguns so that the IR receiver on the guns are always pointing to camera position, ensuring reliable off camera flash triggering, particularly in bright conditions where Joe sometimes finds IR triggering difficult.

- Features and Benefits**
- ▶ Attach up to three flashguns
 - ▶ Rotating shoe mounts
 - ▶ Screw locking

Specifications	
Joe McNally Rotating TriFlash	Code
Joe McNally Rotating Locking TriFlash Tiltthead	LL LR2457JM

Joe McNally Skylite Rapid with Masks

The Joe McNally Skylite Rapid with Masks is a 1.1m x 1.1m (3'6" x 3'6") 2 stop translucent panel featuring the unique clip-on cover from the Lastolite Skylite Rapid system. Featuring removable mask strips which attach directly to the cover, the photographer has full control on how to shape the light; from the full 1.1 x 1.1m (3'6" x 3'6") to 1cm x 90cm (0.4" x 35.5") or a 30cm x 60cm (12" x 23.5") rectangle, the possibility is endless. This product is ideal for diffusing the light from three speedlights fitted to a Joe McNally Triflash. The whole product is supplied in a handy carry bag for maximum portability.

Features and Benefits

- ▶ Rigid aluminium frame
- ▶ Seven mask strips
- ▶ Griphead included
- ▶ Quick and easy to assemble

Specifications

Joe McNally Skylite Rapid with Masks	Code
Joe McNally Skylite Rapid with Masks	LL LR81146JM

Joe McNally UpLite

The Joe McNally UpLite features two 90cm x 120cm (3' x 4') double sided reflectors (Silver / White and Sunlite / Soft Silver) plus a 90cm x 120cm (3' x 4') 2 stop diffuser panel. Any combination of these panels can be paired up to form a floor level bounce reflector, and can be adjusted to alter the angle of the panels from 30 degrees to 80 degrees. Joe will sometimes replace the top reflector panel with the diffuser, and shoot one or more of his flashguns through the panel, giving him a fully controllable diffused fill light. Waterproof sprung steel and a waterproof shower cap protect the base when used outdoors whatever the weather.

Features and Benefits

- ▶ Self supporting reflector/diffuser panels
- ▶ 30 to 80 degree positions
- ▶ Ideal for outdoor use
- ▶ Waterproof base bottle top

Specifications

Joe McNally UpLite Kit	Code
Joe McNally UpLite Kit	LL LR3497JM

Kit contains - 2 x reflector panels, 1 x diffuser panel, 1 x extending support, 1 x waterproof bottle top.

Flashgun Brackets & Accessories

Off Camera Cords for Flashguns

Extension cords to enable the photographer to position their battery operated flashguns up to 3m (9'9") away from the camera. Available in Canon and Nikon versions.

Features and Benefits

- ▶ Single shoe mount
- ▶ Retains all TTL metering
- ▶ Position gun up to 3m (10') from the camera
- ▶ Available to fit Canon and Nikon

Specifications

Multi-fit Softboxes

MegaLite PATENTED

The bigger the softbox, the softer the light!

The MegaLite is a large 1.2 x 1.8m (4' x 6') portable softbox and silver reflective panel. The MegaLite can be used as a floor standing unit or in conjunction with the adjustable stand (with wheels) for ultimate adjustability. The stand enables the photographer to raise the softbox up to 105cm (42") from the floor and rotate the angle of the softbox/reflector from vertical to horizontal. The softbox can be lit with one or two studio flash heads (one on each side) depending on the output required. If using the softbox with the stand (LL LB6489) the heads attach directly onto the stand so they move with the softbox making positioning very quick and easy.

Features and Benefits

- ▶ Portable 1.2 x 1.8m (4' x 6') softbox
- ▶ Folds to a third of its original size
- ▶ Silver reflector on rear surface
- ▶ Optional stand on wheels with vertical and rotational movements

Dyed Knitted Ezycare Backgrounds

The dyed knitted Ezycare curtain backgrounds come in six popular colours and are made from a knitted fabric which can be draped or stretched to instantly remove any creases. Fully machine washable at 40°C (105°F) in a large washing machine, these backgrounds are available in two sizes 3m x 3.5m and 3m x 7m. Each background is supplied in a handy tote bag and features a hem on the 3m edge to insert a pole for support. A set of four clips are included to secure the background when stretched between the stands of a support system. Two sand bags are also included to secure the floor section of the background.

Features and Benefits

- ▶ Available in 3m x 3.5m (10' x 12') and 3m x 7m (10' x 24')
- ▶ Six colours
- ▶ Creases can be removed by stretching the fabric
- ▶ Support systems available (page 64-65)

Lastolite's 'wipe clean' Superwhite vinyl background can literally be used over and over again. Simply wipe away any dirt or footprints at the end of your shoot, then roll it back up ready for next time! It couldn't be easier. Supplied on a roll the same width as our standard paper backgrounds (2.75m) the Superwhite vinyl can easily be suspended using our LL LB1128 background support system, while the 3.5m can be suspended using the 4m Solo Background Support (LL LB1142).

Note: Not compatible with the Manfrotto Expan Drive System

Features and Benefits

- ▶ Wipe clean
- ▶ Long lasting
- ▶ Ideal for 'high key' photography'
- ▶ 2.75m x 6m (9' x 20') and 3.5m x 6m (11'5" x 20')

Specifications

“ The HiLite is probably the best investment you will ever make as a photographer who uses flash. Why? There is not any other flash based product on the market that has so many uses to create so many styles and in any location. From a background to a window light, the HiLite allows you to shoot big light anywhere, producing a window light quality or a portable pure white background. ”

Mark Cleghorn, Photographer & Director of The Photographer Academy.

Getting creative with the HiLite by putting the model inside, there's so much you can do with a HiLite.

The HiLite is not only a background. It can be used as a huge full length softbox.

The HiLite is so simple to set up. Just attach a short rod to each corner and it's ready to shoot.

Portable Backgrounds

HiLite Backgrounds **PATENTED**

The HiLite background range allows the photographer to work in a way that was extremely difficult to achieve in the past, 'high key' photography on location and in restrictive spaces. By rear lighting the white background itself there is no longer a need to use a background light behind the subject. Furthermore, because the background is actually illuminated it means the subject can stand virtually right in front of it without casting a shadow. The HiLite backgrounds also work as a large rear softbox and illuminates the subject as well, meaning you can use just one other flash head to light the subject from the front. What's more, the whole thing is collapsible.

Features and Benefits

- ▶ Available in four sizes 1m x 1.4m (3'6" x 4'6"), 1.5m x 2.15m (5' x 7'), 1.8m x 2.15m (6' x 7') and 2.15m x 2.5m (7' x 8')
- ▶ Can be rotated and used on its short or long edge
- ▶ An optional 'wipe clean' vinyl train is also available that attaches to either edge for full length work
- ▶ Can be suspended on our LL LA1108 background support system
- ▶ Can even be used as a very large softbox
- ▶ Free standing

HiLite Bottletops

The bottletop background covers with a train now make the HiLite product range even more versatile. These backgrounds stretch over the HiLite and allow the photographer to quickly switch from a high key to a low or mid key environment. When using the covers the HiLite should not be illuminated from the rear.

Features and Benefits

- ▶ Switch from high key to mid or low key in an instant
- ▶ Designed to fit the 1.8m x 2.15m (6' x 7') HiLite
- ▶ Available in three colours

Magnetic Background Support PATENT PENDING

The Lastolite By Manfrotto Magnetic Background Support makes attaching and removing backgrounds simple. The steel band located within the rim of The Lastolite by Manfrotto backgrounds attaches directly to the two magnetic housings on the crossbar. The support can be raised to its desired position and the background simply lifted into position. The Magnetic Background Support will fit to most lighting stands with a 5/8" spigot. A kit is also available which includes a LL LS1159 lighting stand and carry case.

Features and Benefits

- ▶ Magnetic connectors
- ▶ Universal fitting
- ▶ Available as a kit*
- ▶ Holds up to 5kg (11lb)

Background Supports

Solo Background Support

The Solo background support features a unique pivoting cross bar which makes raising the background on the supports a much easier and safer operation. Rather than step by step adjustments at each end of the support system the new pivoting connectors allow for much greater steps without making the whole structure unstable and unmanageable. The support is available as a 3m wide or 4m wide solution. The 4m version can also be extended to 6m to accommodate wider textile backgrounds and features our heavy duty stands which allow the use of our wide width vinyl (page 59). Each kit comes in a handy carry case which fits easily into a car.

Features and Benefits

- ▶ Single user operation
- ▶ Unique pivoting cross bar
- ▶ 3m, 4m and 6m widths, up to 2.8m high

Product Photography

Cubelite®

The Cubelite® allows the photographer to control the lighting of products, minimizing shadows and isolating the subject from the background.

It's never been easier to take quick and crisp product shots on location or in the studio. The Cubelite® has been enhanced in a number of ways so as to improve its utility:

- Background clips mounted in the roof for additional height.
- Open base for even floor surface, easier to fold, and enables positioning of cube over immovable items e.g. plants.
- Front opens to edge of Cubelite® for wider viewing angles.

The Cubelite® offers a true location studio which instantly pops open ready for work.

Features and Benefits

- ▶ Ideal for product shots
- ▶ Shadowless lighting
- ▶ Perfect for digital or film use
- ▶ Isolates subject
- ▶ Collapses to a third of its original size

Specifications

Cubelite®	Size	Code

Product Photography

Studio Cubelite® **PATENTED**

The Studio Cubelite® is the ultimate solution for product photography and takes our highly successful Cubelite® concept even further. It allows for control of the light from below and all other directions allowing the photographer to give products that floating look with no shadows if desired. The tensioned diffuser fabric means the reflections on even the most reflective surface are kept to an absolute minimum, whilst the generous front opening can be closed to mask reflections from the camera/operator as well. The patented design also allows you to control the light from underneath by pointing the source up or down into the base unit giving different light distribution effects and creating graduated backgrounds if required.

Features and Benefits

- ▶ 360 degree lighting
- ▶ Full shadow control
- ▶ Reflection control
- ▶ Collapses flat in minutes with simple tensioning rods
- ▶ Features a unique base diffusion system
- ▶ Includes a diffused film to create the translucent background
- ▶ Includes an acrylic top surface for heavier items up to 8kg (17.6lb)
- ▶ Minimum room height required for the 100cm Studio Cubelite® kit is 240cm (7'8")

Specifications

Studio Cubelite®	Size	Code
Studio Cubelite®	70cm x 70cm x 155cm (28" x 28" x 61")	LL LR8824

LiteTable PATENTED

The Lastolite By Manfrotto still life table "LiteTable" will revolutionize your product photography with its ease of use and light control. It can be assembled in minutes (without the use of any screws, bolts or allen keys!) and folds flat into a handy carry case when not in use, making it ideal for occasional use and location work. The unique patented design allows the photographer to control the light distribution underneath the table by positioning the light in different ways, creating graduated backgrounds or a completely even tone. With gels the creative possibilities are endless. Many of these techniques have previously been difficult with conventional light tables as they have open sides underneath.

With illuminated LiteTable base

Without illuminated LiteTable base

Features and Benefits

- ▶ Available in two sizes
- ▶ Includes an acrylic top surface for heavier items up to 8kg (17.6lb)
- ▶ Includes a translucent background Film to create an infinity curve

Specifications

LiteTable	Size	Code
LiteTable	70cm x 70cm x 150cm (28" x 28" x 60")	LL LR7824
LiteTable	1m x 1m x 1.8m (39" x 39" x 72")	LL LR7836

ePhotomaker

The ePhotomaker has been designed for eBay and other online auction users looking to improve their images. Having well-lit photos with accurate colours can make the difference between selling or not selling a product. The ePhotomaker features a diffusing fabric on one side to soften the light and a reflector to fill in the shadows on the other side. All you need to provide is an ordinary domestic desk lamp. The ePhotomaker kit includes an EzyBalance grey card to control colours and exposure resulting in photographs with crisp white backgrounds. The kit also includes a tabletop tripod.

Features and Benefits

- ▶ Ideal for selling products on the web
- ▶ Supplied with a blue gel to simulate daylight lighting conditions
- ▶ Collapsible - easy to store
- ▶ Built in reflector on one side, diffuser on the other side
- ▶ Kit contains ePhotomaker, EzyBalance, Blue daylight gel, clips and Tripod

Specifications

ePhotomaker	Code
ePhotomaker Small Kit	LL LR2484
ePhotomaker Large Kit	LL LR3684

ePhotomaker kit contains:

- ePhotomaker
- EzyBalance 'Point and Shoot' (grey surface only)
- Tabletop tripod
- Blue daylight gel with clips

Baby Poser

The baby poser is a range of bead filled cushions designed to support a baby securely during the shoot. The cushions can be configured in different ways to pose babies of all ages comfortably on their back or front, kneeling or standing. When the cushions are positioned how you want them, fabric can be placed over the cushions to create the background colour of your choice. Each cushions is covered with a waterproof fabric in case of any little accidents!

Features and Benefits

- ▶ Multi position
- ▶ Waterproof covering
- ▶ Supports babies of all ages
